

Red Mountain Bank

Brentwood, TN

Description of Work:

Renovation of an existing building into a high-end banking center utilizing the design-build approach under a tight time frame of three months. Renovation included complete gutting of the structure, new roof installation, new MEP, new parking lot, new high-end interior spaces, and new storefront systems.

Additionally, construction entailed coordination of non-traditional, high-tech banking systems and drive thru equipment. Project was delivered on time and under budget.
